

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

## DECEMBER 7.

The President, SAMUEL G. DIXON, M. D., in the Chair.

Twenty-eight persons present.

Papers under the following titles were presented for publication:—

“Descriptions of two new forms of *Perideris*,” by Henry A. Pilsbry.

“Synopsis of the recent Psammobiidæ of North America,” by W. H. Dall.

“The *Gerrhonotus* of the San Lucan Fauna of Lower California with diagnoses of other West American Species,” by John Van Denburgh.

“The Petrification of Bones,” by E. Goldsmith.

## DECEMBER 14.

The President, SAMUEL G. DIXON, M. D., in the Chair.

Forty-four persons present.

## DECEMBER 21.

The President, SAMUEL G. DIXON, M. D., in the Chair.

Forty-six persons present.

A paper entitled “Anatomical Notes on certain Western American Helices,” by Henry A. Pilsbry and E. G. Vanatta, was presented for publication.

The death of the Rev. Samuel Haughton of Dublin, Ireland, a Correspondent, was announced.

*Additional Note on the Gastropod Genus Tatea, Tenison-Woods.*  
—MR. H. A. PILSBRY offered the following remarks: Owing to the incompleteness of our series of the “Proceedings of the Royal Society of Tasmania,” and to the omission of an entry in the “Zoological Record,” an important note on *Tatea*,<sup>1</sup> by a corresponding member of this Academy, was overlooked by me in dealing with this genus in these Proceedings, p. 360.

Professor Tate correctly refers *Dardania* Hutton, 1882, to *Eaton-iella*, following Hutton;<sup>2</sup> and he further includes *Tatea* in *Eaton-*

<sup>1</sup> On the classificatory position and synonyms of *Eatoniella rufilabris*, by Professor Ralph Tate, F. L. S., F. G. S.

<sup>2</sup> Proc. Linn. Soc. N. S. Wales, IX, 1895, p. 940.
